Greetings to the Gold King Mine Incident and Community Response Group:
As you all know, the next meeting is this Thursday. I sent out the meeting notice last week so let me know if you did not receive it. Attached please find a document that is meant to be a snapshot of various groups doing monitoring. We will discuss on Thursday. This is not meant to be a comprehensive analysis of monitoring results nor is it meant to sum up gaps. It's simply a listing. If you have changes/additions, you can email me.

Peggy Zemach from the Powerhouse Science Center asked me to share the attached flier advertising an educational event coming up.

I am attaching the updated roster. Please be careful about adding anyone to email trees and do only with their permission ☺

Look forward to seeing you Thursday. We will again at the San Juan Public Lands Center.

Thanks!

Marsha Porter-Norton
